March 19, 2013

Dear Sir:

It is my pleasure to write a letter to fully support the proposal of the Joint Project: MEDIS: A Methodology for the Formation of Highly Qualified Engineers at Masters Level in the Design of Advanced Industrial Informatics Systems, being submitted to the TEMPUS IV – 6th Call for proposals.

The MEDIS proposal aims at training engineers in Information and Communication Technologies for the industrial sector and it is very appropriate for their professional carrier in Ukrainian IT-companies that provide ICT solutions for the industry.

Sincerely,

Victor Valeyev
Director, Association "IT Ukraine"
