Dear Sir:

It is my pleasure to write a letter to fully support the proposal of the Joint Project: **MEDIS: A Methodology for the Formation of Highly Qualified Engineers at Masters Level in the Design and Development of Advanced Industrial Informatics Systems**, being submitted to the TEMPUS IV – 6th Call for proposals.

The MEDIS proposal aims at training engineers in ICT technologies for the control of industrial processes and it is very appropriate for their professional career in First BIT LLP engaged in providing best possible software solutions on the 1C:Enterprise platform for companies from many different industrial sectors and comprehensive automation of business processes.

Sincerely,

Timur Khojamkulov
