Dear Sir:

*It is my pleasure to write a letter to fully support the proposal of the Joint Project: **MEDIS: A Methodology for the Formation of Highly Qualified Engineers at Masters Level in the Design and Development of Advanced Industrial Informatics Systems**, being submitted to the TEMPUS IV – 6th Call for proposals.*

The MEDIS proposal aims at training engineers in ICT technologies for the control of industrial processes and it is very appropriate for the development of their professional carrier in a broad range of industrial companies installed in the Valencian Community.

Sincerely,

*José Luis Jorrín Casas
