**University Polytechnic of Valencia**  
**Tempus Project**  
**544490-TEMPUS-1 -2013-1 -ES-TEMPUS-JPCR**

**Dear colleagues,**

It is my pleasure to write a letter in support of the project № 544490-TEMPUS-1-2013-1-ES-TEMPUS-JPCR, “A Methodology for the Formation of Highly Qualified Engineers at Masters Level in the Design and Development of Advanced Industrial Informatics Systems (MEDIS) being submitted to the TEMPUS Program.

PetrSU Staff actively participated in the project activities and a pilot course was implemented on the basis in PetrSU IT Park in 2016.

We support curriculum adaptation at Masters level of engineering school of PetrSU to incorporate in their curricula Advanced Industrial Informatics Specialization Modules (AIISM) for the efficient control of distributed and complex industrial processes.

Members of the project were involved in professional network of Innovation Technology Park which is a key element of PetrSU innovative infrastructure, it contains departments and small innovative enterprises founded by PetrSU, which carry out innovation and industrial activity in scientific and innovative areas.

Sincerely yours,

**Head of Innovation Department**

**Olga Derbeneva**
